## Retailer Comments

Additional options included: Chopped Carbon Fibre Exterior Pack Phosphor Bronze Front Brake Calipers Ebony, Semi-Aniline Leather Seat Trim Tow Hitch Receiver The 2026 Land Rover Defender 110 P635 OCTA is engineered as the most extreme and advanced Defender ever, offering unparalleled capability and explosive power as standard. Performance is staggering, delivered by the 4.4 L Twin Turbocharged V8 engine with Mild Hybrid Electric Vehicle MHEV technology, producing an immense 627 horsepower. This flagship engine is paired with an 8 speed automatic transmission and the robust All Wheel Drive AWD system, featuring a twin speed transfer box with high and low range. Crucially, the OCTA introduces the revolutionary standard 6D Dynamics air suspension, a hydraulic interlinked system that controls pitch and roll to ensure sportscar like on road cornering while providing maximum wheel articulation and stability for tackling the most challenging off road terrain. The cabin is a true command center for the modern adventurer, infused with bespoke technology and exclusive standard details. The digital experience is centered around the Pivi Pro infotainment system, accessed via a responsive 13.1 inch touchscreen display, featuring integrated navigation and seamless wireless Apple CarPlay and Android Auto. For a truly multi sensory audio experience, the OCTA comes standard with the Meridian Surround Sound System and innovative Body and Soul Seat technology, which allows occupants to physically feel the low frequency sounds of the audio. The driver is supported by a standard Head Up Display and a ClearSight interior rear view mirror, providing uninhibited views in all conditions. Every detail of the OCTA is designed for performance and security. The vehicle includes an Integrated Power Brake system with unique components engineered for extreme stopping power and reduced brake fade during aggressive driving. Standard driver assistance features such as Adaptive Cruise Control, 3D Surround Camera system, and Blind Spot Assist provide an essential layer of vigilance. Further adding to the OCTA's distinctiveness are the special driving modes, including a dedicated OCTA Mode that optimizes the vehicle's dynamic settings for ultimate off road performance. With standard Keyless Entry, Garage Door Opener HomeLink, and wireless device charging, the 2026 Defender OCTA delivers an uncompromising blend of standard, extreme capability and ultimate luxury.
